

I'm a highly motivated individual, who recently graduated with first class honours in Digital Media Design. My studies have equipped me for a role in many areas, such as UX/UI Design, Interaction Design and Graphic Design. I have a good working knowledge of many industry leading software applications such as the Adobe Suite, as well as having video and audio editing/production experience and user research knowledge. As a recent mature student, I offer a lot of qualities such as excellent team work, initiative, communication and organisational skills. My knowledge and skills have been shaped and enhanced over the last number of years through hard work and study. I am eager to utilise these skills and I am confident they would enable me to become a valuable contributor in the design industry.
