

I'm a highly motivated individual, who recently graduated with first class honours in Digital Media Design. My studies has equipped me well for a role in areas such as UX/UI Design, Interaction Design or Design Research. I have a good working knowledge of many industry leading software applications such as the Adobe Suite, as well as having video and audio editing/production experience.

As a recent mature student, I offer a lot of qualities such as good team work, communication, organisational skills and efficiency. These skills have been shaped and enhanced over the last number of years and I am eager to add to and develop them further. I am looking for a position where I can best utilise the skills and knowledge I have developed.
